

STAGED
HOME STAGING

OUR HOME STAGING PROCESS

Give Staged a call to book an onsite consultation by one of their home staging consultants.

Walkthrough and proposal

Staged will visit your property and discuss its potential, the buyers you wish to target and the level of service you require i.e., vacant staging, partial staging or the option to stage it yourself.

Staged will put together a detailed report outlining their styling recommendations for maximum market value and a quote for the service you require. This is done at a cost of \$80.00 (GST excluded) and includes the walkthrough and proposal report.

Should you accept Staged's proposal for a vacant or partial staging, full payment will secure booking with them.

Installation day

Staged staging will make all the arrangements for installation day.

On the day Staged will bring all the elements together and stage your property over 1-2 working days, depending on the property's size and the service you have selected.

Staged can assist with photoshoot styling if required.

Rental period and removal

Staged provides a standard rental period of four weeks plus one free week should you need it. Their furnishings will be insured for the full staging and removal period.

If you need the furniture for longer, the rental period can be extended at an additional weekly cost.

At the end of the contract period or after successful sale of your home, Staged will remove all the rental items and leave your home as they found it.
